PROJECTS

CSIT Hub [Preview](#) | [Code](#)

Built a webapp for engineering and IT students to access study materials, regular updates and notifications, and an ad-free experience, all in one place. Over 1K+ people have used it so far!

Tech Stack: HTML, CSS, JavaScript.

Ecommerce WebApp [Preview](#)

Bhusal Kirana Pasal is the Grocery store that sells the Grocery related items. I have designed a dynamic webapp for BKP's team for selling their items online through website. It replicates the core features of ecommerce webapp, including real-time chat, order of products, delivery and a scalable backend architecture.

Tech Stack: React, TailwindCSS & Node.js.

Nepal Telecom [Preview](#) — [Code](#)

The Nepal Telecom clone project is a web app with an admin dashboard. It mimics the functionality of NTC and allows users to purchase products securely while providing admins with tools to manage inventory, orders, and customers.

Tech Stack: HTML, CSS, JavaScript & Bootstrap.

LANGUAGES
